

SB 827 Fact Sheet for Assembly District 18: Oakland, San Leandro, Alameda

Senate Bill 827 would allow more housing at the state's vital transit hubs, a solution to inadequate supply of housing in urban areas, as well as the crushing traffic commutes endured by so many. For example, it would allow buildings up to approximately five stories within one quarter mile of a rail station, which is about a 4 minute walk. Along bus lines, SB 827 would not authorize additional height, but it would legalize so-called "missing middle" housing, such as duplexes and triplexes. SB 827 would retain local controls over housing, including all policies related to demolition and affordability requirements.

SB 827 would mean more jobs, more customers, less emissions, cleaner air, more homes, more families, and a more affordable California. A California for everyone.

How many SB 827-eligible transit stops are in Assembly District 18?

Ranked against all 80 Assembly districts, District 18 is:

 **#3**
IN BUS STOPS

 **#18**
IN RAIL STOPS
